BUYERS OF **HARDWOOD TIMBER** MANUFACTURERS & WHOLESALEERS OF **HARDWOOD LUMBER**

March 11, 2009.

Willard G. Hallman Lumber Ltd. is a family-run, hardwood sawmilling operation located in Grey County. After six generations in the forestry industry, we recognize the importance of proper, long term, and beneficial forest management.

We would be pleased to meet with you for a free consultation and give you a top price offer on your standing timber. We have been providing excellent service in your area in the past.

Our emphasis, from the first consultation, to the selection and harvest of the trees, is always on the management of the timber resource, nurturing and protecting your residual trees and maximizing your dollars today and in the future.

Our contractors use standard chain saw and small skidder logging. Trees that have attained the necessary size, and possibly diseased and dying trees as well, are selected for harvest and marked by me as a certified tree marker and then professionally cut and carefully removed leaving a higher quality stand of trees to grow for the next harvest. We disapprove of solely "high-grading" thus leaving diseased and low grade trees for the future.

We would be happy to answer any questions you may have. We are fully insured and our professionally certified workers are covered by the Workplace Safety and Insurance Board. You may contact me at the following number or by e-mail.

Sincerely,

Patrick Godin
Forest Technician, MNR Certified Tree Marker
Woodlands Manager, Timber Buyer
